Accessibility Statement:
March, 2018

Boise State University acknowledges that the current version of YouCanBookMe is not accessible as of March, 2018. Boise State continues to work with the vendor to remediate the level of accessibility for their product, YouCanBookMe.

As an accommodation, a user can request assistance directly by calling COBE Advising Services at (208) 426-3859. If using a screen reader accessible technology to book an advising appointment online, please note the following:

Selecting Your Appointment with a Specific Advisor
When selecting a specific advisor, the screen displays a picture of the advisor, the advisor’s name linked, and a “select” button. The screen reader will list all three of these as links; select any of the three (picture, advisor name, or “select” button) to be directed to that advisor’s calendar.

Available Appointment Times
When selecting an appointment time, the screen reader does not clearly specify available vs. unavailable appointment times. For available times the screen reader will say “…link…”

Confirming Your Appointment
Most actions will not be immediately confirmed while using the screen reader. However, once the form has been submitted, a confirmation via e-mail will be sent to confirm date, time, location, and advisor, if a specific individual is chosen.

Redundant Titles
Some of the titles may be redundant as the heading stays the same and will be read with the start of each new page while using the screen reader.

For Assistance Please Call
For assistance scheduling an appointment or questions, please call COBE Advising Services at (208) 426-3859.
